LONG-TERM CARE PARTNERSHIP OVERVIEW

BACKGROUND

In 2006, President Bush signed the Deficit Reduction Act of 2005, which enables states to create LTCi partnership programs. These alliances between the states and private insurance companies encourage people who otherwise might rely on Medicaid for their LTC needs to purchase partnership-qualified policies. The goal is to help stabilize Medicaid by delaying people's use of the program.

Insurance companies voluntarily agree to participate in a state's partnership program by offering LTCi policies that meet specific requirements:

- The policy must be tax-qualified
- The policy must offer inflation protection based on specific age brackets at the time of purchase

The Long-Term Care Insurance Partnership Program began in the 1980s to encourage the purchase of private long-term care insurance. Sponsored by the Robert Wood Johnson Foundation, it provides an alternative to spending down or transferring assets by forming a partnership between Medicaid and private long-term care insurance.

Partnerships were developed basically to encourage people who might otherwise turn to Medicaid to finance their long-term care by purchasing insurance.

One of the main benefits of Long-Term Care Partnership plans is that they allow individuals who deplete their long-term care insurance benefits to retain a specified amount of assets and still qualify for Medicaid, provided they meet all other Medicaid eligibility requirements.

DEFICIT REDUCTION ACT

With the passage of the Deficit Reduction Act (DRA) in 2005:

- Congress allowed all states (based upon state approval) to adopt partnerships and
- Discontinued estate recovery of Partnership-protected assets.

HOW PARTNERSHIP PLANS WORK

Partnership plans work between state government and private insurance companies for the purpose of assisting individuals in planning for their long-term care needs.

Insurance companies voluntarily agree to participate in the Partnership Program by offering long-term care insurance policies that meet certain state and federal requirements.

Mutual of Omaha

Participating states work with insurers to create insurance policies that are more affordable and provide better protection against impoverishment than those commonly offered. Once private insurance benefits are exhausted, special Medicaid eligibility rules are applied if additional coverage is necessary.

Consumers select coverage equivalent to the amount of assets they want to protect. Once the private policy is exhausted, individuals can continue their long-term care coverage under Medicaid if they meet Medicaid eligibility requirements (their assets, up to an amount equal to the policy benefits paid, will not be looked at by Medicaid).

Key Points to Keep in Mind:

- Partnership-qualified policies affect a person's assets only, not income.
- Partnership-qualified policies protect the amount of a person's assets equal only to the long-term care benefits that have been received. That is, if all of the insurance benefits have been exhausted, and the individual applies for Medicaid, he or she will still need to spend down any assets above this amount.

Dollar for Dollar Model

A "Qualified State Partnership" is an approved state plan amendment that offers dollar-for-dollar asset protection. Under the dollar-for-dollar model, for every dollar the long-term care Partnership policy pays in benefits, a dollar of assets is protected from the spend-down requirements for Medicaid eligibility.

Example: Someone who purchases a long-term care Partnership policy with a maximum benefit coverage equaling \$50,000 would have protection for \$50,000 worth of assets if ever in need of Medicaid coverage.

The examples on the following chart show the benefits a partnership policy can provide. In the first example, the policy insures for \$100,000.

In the second example – If the policyholder assets upon application for Medicaid are \$100,000, the required asset spend-down before the policyholder is eligible for Medicaid would be \$0.

| Amount Policy Insures for | Policyholder Assets Upon Application for Medicaid | Required Asset Spend-Down Before Policyholder is Eligible for Medicaid |
|----------------------------------|--|---|
| <i>\$100,000</i> | <i>\$100,000</i> | <i>\$0</i> |
| <i>\$ 50,000</i> | <i>\$100,000</i> | <i>\$50,000</i> |
| <i>No Partnership Policy</i> | <i>\$100,000</i> | <i>\$100,000</i> |

Partnership-Qualified Policy Example

The following is an example of a Partnership-qualified LTC policy and how it works with Medicaid Asset Protection.

| Age of Policyholder | With a Partnership-Qualified LTC Insurance Policy |
|-------------------------------|--|
| Mary, Single Mother Age 56 | <ul style="list-style-type: none"> ➤ Employed with current retirement assets of \$500,000 ➤ Seeking to preserve a portion of her estate for her son ➤ Mary purchases a Partnership-qualified LTC insurance policy |
| At Age 79 | <ul style="list-style-type: none"> ➤ Current retirement assets now at \$600,000 ➤ Mary needs long-term care; satisfies the benefit eligibility requirements and goes on claim ➤ She pays for her care with her LTC insurance policy |
| At Age 84 | <ul style="list-style-type: none"> ➤ Retirement assets at \$600,000 ➤ Home equity value less than \$500,000 ➤ Policy is exhausted after paying out \$450,000 in benefits – This amount, plus her state’s resource allowance, represents the increased amount of assets she will be able to protect when she seeks to qualify for Medicaid ➤ Mary still requires LTC services and applies for Medicaid Asset Protection ➤ She is required to pay her costs for LTC from her personal assets and income |
| At Age 85 | <ul style="list-style-type: none"> ➤ Mary is only required to spend down her assets to \$460,000 (\$450,000 plus a \$10,000 resource allowance) ➤ She now qualifies for Medicaid, which starts covering her LTC costs ➤ Mary’s \$460,000 in assets are protected, but she is still required to contribute her personal income toward her total LTC costs |
| At Age 87 | <ul style="list-style-type: none"> ➤ Mary passes away ➤ Retirement assets of \$460,000 are preserved for her son |

APPLYING FOR MEDICAID

Policyowners do not need to exhaust their policy before applying for Medicaid. They can apply for Medicaid at any time.

Key Points:

- Medicaid coverage is not automatic (i.e., a person’s income may exceed the Medicaid eligibility limits). Even if the individual does qualify, the majority of the person’s income may need to be spent on long-term care.
- Medicaid asset and income eligibility limits may be more restrictive in the future, which would make it more difficult for individuals to qualify.

Mutual of Omaha

- If the Insured moves to another state, Medicaid asset protection may not be available there. The new state may not have a partnership program, or it might not have reciprocity with the old state. In addition, the benefits and eligibility of the new state's Medicaid program may be different from the old state's program.

As with all long-term care policies, consumer protections must be in place for partnership policies. The law also requires states to use the "dollar for dollar" model of asset protection.

DRA REQUIREMENTS

The Deficit Reduction Act of 2005 (DRA) states that a "Qualified Partnership Policy" must meet these conditions:

- The Insured person must be a resident of the Partnership state when the coverage first became effective
- The policy must meet the IRS definition of a "qualified long-term care insurance policy."
- The policy must meet specific rules of the National Association of Insurance Commissioners (NAIC) Model Regulations and Model Act.
- The policy issue effective date cannot be earlier than the effective date of the State Plan Amendment (SPA).

Inflation Protection Requirement

The DRA requires that long-term care partnership policies include inflation protection if sold to an individual under age 76. The requirement varies depending on the age of the Insured at the time of purchase.

The compound annual inflation protection is required for purchasers below age 61. However, states can determine the percentage rates (3%, 5%*, etc.) that qualify.

Here is a summary of the inflation protection requirement:

- Ages 61 to 76 years old: Some level of inflation protection is required
- Over 76 years old: Inflation protection is optional

*There is a requirement to offer 5% lifetime compound inflation protection which applies to all ages.

Key Point: If an individual purchases a Partnership policy and later decides to remove the Inflation Protection feature, the policy will no longer qualify as a Partnership policy.

NOTE: Partnership policies in the original four “grandfathered” states (CA, CT, IN and NY) must include 5 percent compound annual inflation protection. Under the DRA, new states offering Partnership policies have less stringent rules to follow.

PARTNERSHIP TRAINING REQUIREMENTS

Insurance companies are responsible for ensuring that their producers have the proper long-term care partnership training. They must:

- Maintain records verifying that producers who sell, solicit or negotiate long-term care insurance products have received the required training
- Make these records available to the state insurance department

SUITABILITY

All states require insurance companies and agents to make a reasonable effort to determine the suitability of a recommended sale or replacement.

For the most part, the same suitability requirements that apply to long-term care insurance policies also apply to partnership long-term care policies, with some additional considerations.

There are potential limitations regarding the suitability of partnership policies as they relate to Medicaid requirements. These situations depend on the client’s particular financial situation.

For example, it may not be advantageous for individuals with a very modest financial situation to purchase a partnership policy, particularly if their assets are not large enough for them to benefit significantly from Medicaid asset protection.

PRODUCER REQUIREMENTS FOR LICENSING, TRAINING & ISSUING THE APPLICATION

Licensing Requirements:

The agent must be licensed in the state where the client is physically located at the time of sale.

CA & KS Exceptions: If the applicant is a resident of CA, the agent must be licensed in CA, regardless of where the sale is made. If the applicant is a resident of KS, the agent must be licensed in KS regardless of where the sale is made. For example, if the application is signed in NE for a client who is a resident of KS, the agent must be licensed in both NE and KS.

Training Requirements:*

Long-Term Care Partnership training must be completed for the state in which the application is signed. Reciprocity rules will apply. NOTE: For CA and KS, training must be completed in both the resident state and state where the application is signed.

Issuing the Application – Application and Product Requirements:

The product and application must be for the state in which the client resides.

*Please refer to the Long-Term Care Partnership Training Requirements for state-specific training requirements.

POLICY EXCHANGES

After a state implements a partnership program, carriers may make an exchange offer to existing Insureds subject to and/or as required by state regulations or according to Company policy.

A long-term care policy is considered eligible for a full exchange or coverage increase when the current policy, issued after the State Plan Amendment effective date, does not meet national partnership qualified coverage levels. Additional coverage would need to be selected, such as inflation, obtain a new policy or exchange for a new plan or product in order to become partnership qualified.

Minimum requirements for exchanges and replacements include:

- The state must have an approved partnership program.
- The policyowner must be a resident of the state which has a partnership program.
- The policyowner must have tax qualified coverage.
- The policy effective date must be as described by state regulation or company policy.

Policyholders that qualify for a full exchange or coverage increase will:

- Need to complete a cover sheet and new application, change their benefits and go through additional underwriting on the increased coverage.
- Receive a new coverage effective date to the policy to make it partnership qualified.
- See an increase in their current premium.
- Receive a new Schedule of Benefits page for their policy as well as a Partnership Disclosure Notice, which provides information about their policy's Long-Term Care Partnership status.

Policyholder mailings are handled on a state-by-state basis.

**LONG TERM CARE PARTNERSHIP STATE-SPECIFIC
TRAINING REQUIREMENTS AND
INFLATION PROTECTION PERCENTAGES***

ALABAMA

Initial Training Requirement

Before selling, soliciting, or negotiating LTC insurance in Alabama, producers must complete an initial Alabama 8HR NAIC LTC course OR they may take an 8HR NAIC LTC course from another state.

Non-Resident Training Requirement

Before selling, soliciting, or negotiating LTC insurance in Alabama non-resident producers must complete an initial 8HR LTC training course OR an 8HR NAIC LTC course from another state.

Refresher Training Requirement

All producers must complete 4HRs LTC training every 24-months.

Reciprocity Accepted: Alabama is a post-DRA State and will honor any post-DRA state’s approved NAIC Partnership course (Res and Non-Res).

Partnership Inflation

| Compound Lifetime & Compound Lifetime Buy-up | | Compound 20 Yr. & Compound 20 Yr. Buy-up | | Compound 15 Yr. Buy-up | Compound 10 Yr. Buy-up |

ALASKA

(Partnership is not available)

Initial Training Requirement

Before selling, soliciting, or negotiating LTC insurance in Alaska producers must complete an initial Alaska 8HR NAIC LTC course OR they may take an 8HR NAIC LTC course from another state.

Non-Resident Training Requirement

Before selling, soliciting, or negotiating LTC insurance in Alaska non-resident producers must complete an initial 8HR LTC training course OR an 8HR NAIC LTC course from another state.

Refresher Training Requirement

All producers must complete 4HRs of approved LTC training every 24-months.

Reciprocity Accepted: Alaska is a post-DRA State and will honor any post-DRA state’s approved NAIC Partnership course (Res and Non-Res).

ARIZONA

Initial Training Requirement

Arizona requires that resident producers take an Arizona 8HR NAIC LTC course that has been approved as Continuing Education in the state of Arizona. *Resident producers may not take training from another state to satisfy this requirement.*

Non-Resident Training Requirement

Before selling, soliciting, or negotiating LTC insurance in Arizona non-resident producers must complete an initial 8HR LTC training course OR an 8HR NAIC LTC course from another state.

Refresher Training Requirement

- Resident producers must complete 4HRs of Arizona-approved long-term care training after the two-year period within which the individual completed the initial long-term care training, and must complete on-going long-term care training every two years thereafter
- Non-Resident producers may take an Arizona 4HR course OR they may take an 4HR NAIC LTC course from another state, and must complete on-going long-term care training every two years thereafter

Reciprocity Accepted: Arizona is a post-DRA State and will honor any post-DRA state’s approved NAIC Partnership course (non-residents only).

CALIFORNIA

Original partnership state. Mutual is not marketing partnership-qualified products in this state.

Initial Training Requirement

Before selling, soliciting, or negotiating LTC products in California, producers must complete a California specific 8HR NAIC LTC training course.

Non-Resident Training Requirement

Before selling, soliciting, or negotiating LTC products in California non-resident producers must complete a California specific 8HR NAIC LTC training course.

Refresher Training Requirement

After completing the initial 8-hour training requirement **all**:

- Producers licensed 4 years or less must complete 8 hours of state-approved LTC training annually for the first 4 years of licensure.
- Producer licensed more than 4 years must complete 8 hours of state-approved LTC training in every 2-year license term.

Reciprocity Accepted: California LTC training will not satisfy another state’s training requirements.

COLORADO

Initial Training Requirement

Resident producers may not sell, soliciting or negotiate long-term care insurance before completing a one-time training course of no less than 16 HRs initially. The (16HRs) shall be 8HRs on general long-term care insurance can be self-study, internet based or classroom training and 8HRs of specific long-term care partnership training (classroom only). *Resident producers may not take an 8HR NAIC Partnership course from another state.*

Non-Resident Training Requirement

Before selling, soliciting, or negotiating LTC insurance in Colorado non-resident producers must complete an initial 8HR LTC training course OR an 8HR NAIC LTC course from another state. Non-resident producers are not required to complete the initial one-time 8HR Partnership Classroom training.

Refresher Training Requirement

- Resident producers must complete a 5HR LTC refresher classroom (or webinar) training every 24 months.
- Non-resident must complete 4HRs of approved LTC training every 24-months.

Reciprocity Accepted: Colorado is a post-DRA State and will honor any post-DRA state’s approved NAIC Partnership course (Non-Res)

Partnership Inflation

CONNECTICUT

Original partnership state; not marketing partnership-qualified products in this state.

Initial Training Requirement

Producers cannot sell, discuss, or market a CT Partnership plan until he or she is Partnership Certified! Producer must have a valid Connecticut Accident and Health license; and complete an 8HR online Prerequisite course with a score of 70% or better; and complete a 4HR Partnership Certification Training Program which is a classroom course conducted by Connecticut Partnership staff. Only producers who have passed the exam for the Prerequisite Online Course and have a valid Certificate Number from the Online Course will be eligible to register for the Partnership classroom training.

Mutual of Omaha

Non-Resident Training Requirement

Must hold a valid CT non-resident license and meet the same qualifications as a CT resident producer listed above.

Refresher Training Requirement

Refresher Training not required.

Reciprocity Accepted: Connecticut LTC training will not satisfy another state’s training requirements.

DELAWARE

Initial Training Requirement

If the resident producer holds a health license and solicits long term care policies - as part of his/her biennial continuing education requirement, the producer must complete at least 3HRs of training in Delaware long term care insurance. *Resident producers may not take training from another state to satisfy this requirement.*

Refresher Training Requirement

- Resident producers must complete 3HRs of training in Delaware long term care insurance must be repeated each biennium license period.
- Non-Resident producers are not required to complete refresher training

Reciprocity Accepted: Delaware LTC training will not satisfy another state’s training requirements.

Partnership Inflation

INDIANA

Original partnership state; not marketing partnership-qualified products in this state.

Initial Training Requirement

Before marketing, selling, or soliciting any LTC products, all producers must initially complete: 8HR basic long term care course. The course may be self-study or online. Producers wanting to market policies in the Indiana Long Term Care Partnership Program (ILTCP) must comply with the above **and** complete a 7HR Partnership LTC course. This course is a one-time course, in-classroom only.

Non-Resident Training Requirement

Indiana waives the basic 8HR and 5HR renewal requirements for producers holding an IN non-resident license if Indiana has licensing reciprocity with that state. However, to sell IN partnership policies they must take the 7HR Partnership training which is available by classroom training only.

Refresher Training Requirement

Producers satisfying the initial 8HR requirement must complete a minimum of 5HRs (one 5HR course or combination of 5Hrs) of long term care training every two years. (i.e., 3-hour course the first year and 3-hour course the second year). The second 3-hour course must be received before this requirement can be documented in the system.

Reciprocity Accepted: Indiana LTC training will not satisfy another state’s training requirements.

IOWA

Initial Training Requirement

Before selling, soliciting, or negotiating LTC insurance in Iowa producers must complete an Iowa specific 8HR NAIC long term care course which has been approved as CE. Resident producers may not take training from another state to satisfy the initial training requirement.

Non-Resident Training Requirement

Before selling, soliciting, or negotiating LTC insurance in Iowa non-resident producers must complete an Iowa 8HR NAIC LTC course OR an 8HR NAIC LTC course from another state.

Refresher Training

All producers are required to complete a 4HR NAIC LTC training CE course every 36 month CE term thereafter.

Reciprocity Accepted: Iowa is a post-DRA State and will honor any post-DRA state's approved NAIC Partnership course (Non-Res only).

Partnership Inflation

TEXAS

Initial Training Requirement

Before selling, soliciting, or negotiating LTC insurance in Texas producers must complete an initial 8HR NAIC LTC training course that has been approved by the Texas Department of Insurance.

Non-Resident Training Requirement

Texas observes reciprocity for non-resident producers if they are compliant with the long-term care partnership requirements of his or her resident state; and their resident state qualifies as a Post DRA Long-Term Care Partnership state.

Refresher Training Requirement

At least 4 HR in each CE reporting period following the period in which the initial course was taken, and these four CE credits are mandatory as part of the insurance licensing requirement for Texas Producers. The CE reporting period is different for each producer, as it is based on the date the producer was originally licensed.

Reciprocity Accepted: Texas has adopted training reciprocity for non-resident producers if they are licensed in their home state, the home state is a Partnership state, and the producer takes a comparable course in their home state. If the home state is not a Partnership state, the producer can meet the requirements by taking a qualified 8-hour Texas NAIC Partnership course.

UTAH

(Partnership is not available)

Initial Training Requirement

Resident producer with an accident and health line of authority may only sell long-term care insurance if they initially complete a minimum of 3HRs of long-term care training before selling long-term care insurance coverage. A producer may also complete an Initial 8HR NAIC LTC course, which we recommend, to avoid reciprocity issues with other partnership states.

Non-Resident Training Requirement

Before selling, soliciting, or negotiating LTC insurance in Utah non-resident producers must complete a 3HR NAIC LTC training course OR an 8HR NAIC LTC course from another state.

Refresher Training Requirement

All producers must complete 3HRs every two-year licensing period subsequent to the licensing period in which the initial course was taken. A producer may also take a 4HR NAIC LTC Refresher course, which we recommend, to avoid reciprocity issues with other partnership states.

Reciprocity Accepted: Utah has adopted training reciprocity. This means that non-resident producers may take a Utah 3-hour NAIC LTC course OR they may take an 8-hour NAIC LTC course from another state.

VERMONT

(Partnership is not available)

Initial Training Requirement

Before selling, soliciting, or negotiating LTC insurance in Vermont producers may not sell, solicit, or negotiate long-term care insurance before completing an Initial 8HR NAIC training course of which 2HRs shall contain Vermont specific Medicaid information. If producer takes the 8HR course in another state, they must also take the 2HR Vermont supplemental course

Non-Resident Training Requirement

Before selling, soliciting, or negotiating LTC insurance in Vermont non-resident producers must complete an initial 8HR LTC training course OR an 8HR NAIC LTC course from another state. If non-resident producer takes the 8HR course in another state, they must also take the 2HR Vermont supplemental course

Refresher Training Requirement

All producers are must complete 4HR of ongoing training every 24 months after completing the initial training.

Reciprocity Accepted: Vermont is a post-DRA State and will honor any post-DRA state's approved NAIC Partnership course (Res and Non-Res); however, if a course is taken from another state, the producer must also take the 2HR Vermont Supplement training.

VIRGINIA

Initial Training Requirement

Before selling, soliciting, or negotiating LTC insurance in Virginia producers must complete an Initial 8HR NAIC/DRA Partnership Training, containing 2HRs of Virginia State Specific information. *Resident producers may not take an 8-hour NAIC course from another state.*

Non-Resident Training Requirement

Before selling, soliciting, or negotiating LTC insurance in Virginia non-resident producers must complete an Initial 8HR NAIC/DRA Partnership Training, containing 2HRs of Virginia State Specific information. If a course is taken from another state, the producer must also take a 2-hour VA Partnership course.

Refresher Training Requirement

All producers must complete at least 4HRs of ongoing training every 24 months after initial training was completed. Ongoing training must consist of 2HRs Partnership training and 2HR of other LTC training. If the refresher training is not completed within 24 months of the initial training, the agent must take the initial 8HR training again.

Mutual of Omaha

Reciprocity Accepted: Virginia is a post-DRA State and will honor any post-DRA state's approved NAIC Partnership course (Res and Non-Res); however, if a course is taken from another state, the producer must also take a 2-hour VA Partnership course.
