

LIVING BENEFITS GUIDE

**TERM LIFE EXPRESS® AND
INDEXED UNIVERSAL LIFE EXPRESS®**

United of Omaha offers three Accelerated Death Benefit Riders at no extra charge on all Term Life Express and Indexed Universal Life Express policies.

These riders give you an option to access a portion of your death benefit early. Benefits can be used however you wish, providing comfort at a difficult time.

The three triggers for the living benefit riders are:
Terminal Illness | Chronic Illness | Critical Illness

For each of these Accelerated Death Benefit Riders, the requested benefit amount may not exceed 80 percent of the policy's face amount as of the date of the first acceleration. Definitions of chronic or critical illness may vary by state.

Living Benefit Riders

Benefits can be used however you wish, providing comfort at a difficult time.

Here's a hypothetical example

Five years after purchasing a Term Life Express policy, John Smith was diagnosed with lung cancer. He needed money to help pay his daily finances and medical expenses while he was seeking treatment.

John's policy had a \$100,000 face amount, and allows an acceleration of up to 80 percent of the face amount. John decided to use his Living Benefit Rider on his policy and submitted a claim to United of Omaha.

The company's medical directors reviewed the acceleration request and medical records of the insured to determine John's life expectancy. John's requested accelerated benefit amount was reduced by an actuarial adjustment which is based on his remaining life expectancy, and by a \$100 administration fee which is charged for each acceleration.

Once John took his accelerated benefits, his face amount was reduced by the amount requested.

How Living Benefit Riders Work

1 | Terminal Illness Rider

In the case of the Terminal Illness Rider, the reduced benefit will be calculated at a set percentage of the requested accelerated benefit. Please note: The percentage rate listed below is subject to change.

Terminal Illness: The insured must provide evidence from a medical professional that their life expectancy is 12 months or less.

Based on: Male, Nontobacco, Age 40, 15-year term, five years into policy, 5 percent interest rate.

Face Amount	\$100,000
Requested Acceleration (80% max)	\$80,000
Actuarial Adjustment (rate approx. 5% in 2023)	\$4,000
Administration Fee	\$100
Total Benefit Paid	\$75,900
Remaining Death Benefit	\$20,000

2 | Critical and Chronic Illness Riders

The Critical and Chronic Illness benefits are subject to an actuarial adjustment which is affected by the insured's life expectancy and a variable interest rate percentage.

Chronic Illness: Insured is unable to perform 2 of 6 Activities of Daily Living (ADLs) for 90 consecutive days, as certified by their physician or requires substantial supervision due to severe cognitive impairment.

Critical Illness: Insured has been certified by a physician as having one or more of the following conditions within the last 12 months: ALS, kidney failure, life-threatening cancer, major organ failure, heart attack, stroke, dementia (including Alzheimer's), major burns, AIDS and aortic aneurysm surgery.

Based on: Male, Nontobacco, Age 40, 15-year term, five years into policy, 5 percent interest rate.

	3-Year Life Expectancy	8-Year Life Expectancy	15-Year Life Expectancy
Face Amount	\$100,000	\$100,000	\$100,000
Requested Acceleration	\$80,000	\$80,000	\$80,000
Actuarial Adjustment*	\$14,100	\$20,200	\$46,200
Administration Fee	\$100	\$100	\$100
Total Benefit Offered	\$65,800	\$59,700	\$33,700
Remaining Death Benefit	\$20,000	\$20,000	\$20,000

* Based on the insured's life expectancy and a variable interest rate percentage.
