Completing Simplified Issue Applications

General Guidelines

Select the appropriate state application and applicable forms based on the state where the application will be signed by the policy owner.

Add any additional information such as current medications and reasons for use or supplemental information for health questions under the Optional Comments section of the application. Additional insight provided assists in processing the application.

If an application is taken on a Kansas resident, the producer must be licensed and appointed in Kansas and in the state where the application is signed.

The producer report will need to be completed and sent in with each application for Term Life Express, IUL Express, and Living Promise Whole Life. This does not apply to Children's Whole Life applications.

Term Life Express or IUL Express Applications

Please follow the instructions below when completing a simplified issue application:

- Only one base policy can be applied for per application
- Complete all sections of the application, including plan, amount of insurance applied for, Riders (if applicable), payment mode and premium amount

 - Note: The signature page of the illustration needs to be returned prior to commissions being paid.

- Each child will be issued a separate policy
- Complete all sections of the application, amount of insurance applied for, payment mode and premium amount per child
- Grandparents can sign the application without a parent's signature
- Attach a cover letter or additional information, as needed
- No conditional receipt is required
- Have the client sign state replacement forms (if applicable) and provide a copy to the client

Conditional Receipts

Note: The state of Kansas utilizes a Temporary Insurance Agreement (TIA) instead of conditional receipt. The same conditions apply to qualify for benefits, as outlined below.

The conditional receipt does not apply to Children's Whole Life.

A check or electronic payment authorization for the full initial modal premium must be submitted with the application.

No conditional coverage is provided if a completed conditional receipt is not submitted with the application. The Conditional Receipt Form is included with electronic application submissions.

A receipt is furnished in connection with an application for insurance on the proposed insured(s) bearing the same date as the receipt. Insurance under the receipt will become effective on the effective date defined on the receipt, but only if **all conditions below** have been completely met:

1. The amount received via check, credit card or electronic payment authorization with the application is sufficient to pay: (a) the first premium of a fixed premium plan at the mode applied for; or (b) the first planned periodic premium on a flexible premium plan
2. All required medical examinations must be completed within 60 days from the date of the application
3. Each person proposed for insurance is, as of the application date, eligible for the exact policy applied for, according to the underwriting standards of United of Omaha then in effect, without modification of the plan, premium rate, benefits, class and amounts of coverage applied for
4. To the best knowledge and belief of those signing the application, all the statements and answers in the application are true and complete when made
5. All parts of the application, and if required, exams, supplements to the application, questionnaires and amendments to the application, are completed and received by the home office

The amount of conditional insurance coverage provided under the receipt, if any, shall not exceed \$100,000* (\$50,000 for Living Promise) and shall also not exceed the death benefit applied for.

If the application is not approved and accepted within 60 days of the effective date of the receipt, conditional insurance coverage will cease. In that case, our liability will be limited to the return of the premium paid.

We have the right to terminate conditional insurance coverage at any time prior to the expiration of 60 days of the effective date of the receipt by mailing a refund of the premium paid.

Financial Underwriting Guidelines

Income Replacement Amounts*

Ages	\$25,000 or Higher Annual Earned Income
Under 30	40X
30-39	35X
40-49	30X
50-59	20X
60-64	10X
65+	7X*

*Income replacement is generally not considered for those over age 66 unless an individual is actively at work or if the insured has a surviving spouse who may lose the benefit of a larger spousal Social Security or pension benefit.

Non-Working Spouse

Will generally consider an amount equal to the amount in force and applied for on the breadwinner. If the spouse does not have any active or pending life insurance coverage, the maximum allowed is \$100,000 total combined in-force coverage.

Business Insurance

Simplified underwriting is available for business insurance coverage purposes. An explanation of the purpose of the coverage will be needed. Face amounts over \$100,000 will require additional information generally obtained through a short phone interview. The Employer Owned Form is required when the business is requested to be either the owner or beneficiary.

Key Person

Generally 5-10X earned income plus bonuses if paid regularly as part of a company bonus plan. If the key person has an ownership interest in the company, the appropriate percentage of company net income can be added to his income. Some states have specific requirements to qualify as a key person.

Buy/Sell

Coverage should usually be applied for or in force on all major active partners. Each partner's ownership percentage should be included, and coverage should be proportional to the ownership interest.

Company financial statements and copies of a buy/sell agreement are sometimes necessary to help establish a reasonable market valuation for the company and may be ordered at the underwriter's discretion.

Charitable Giving

Life insurance may be purchased in favor of a charity or an institution to replace the potential value of future contributions by the donor or purely as a gift.

Most situations are reasonable and financially acceptable, but the insurable risk of loss to the institution should be closely related to the potential loss suffered by the charity and the donor's personal insurance needs should be already taken care of.

With simplified issue products, charitable giving is limited to the Living Promise product. The foundation or charitable institution is not permitted to be the owner of the policy.

Contact 1-800-693-6083 for additional Sales Support.

Maximum Total Combined Coverage Amounts

United of Omaha has a maximum combined total for simplified issue coverage which includes Term Life Express, Indexed Universal Life Express, Living Promise and Children's Whole Life policies on a single life.

Ownership/Beneficiary Relationships

Insurable Interest Philosophy

In order to prevent anti selection and fraud, United of Omaha retains the right to question certain beneficiary arrangements for insurable interest and reasonableness and have subsequently set the following guidelines.

Acceptable **Owner/Beneficiary** relationships include:

- Spouse, fiancée, domestic partner
- Parent
- Adult child
- Life insurance Trust
 - As Owner - will require a copy of the Trust Certification form, including the name of trustee, tax ID number and date of Trust
 - As Beneficiary Only - will require date of Trust
- Business or Business Partner
 - As Owner - see Business Insurance Guidelines, additional requirements may be requested
 - As Beneficiary Only - acceptable

Acceptable **Beneficiary-Only** relationships (not as owner) include:

- Estate
- Siblings
- Grandparents and grandchildren
- Close relatives by marriage (in-laws, and step-relations)
- Ex-spouse

Any other Owner/Beneficiary relationships will not be approved.

Acceptable Contingent Beneficiary relationships include:

- Other distant relatives (Aunts, Uncles, Niece, Nephew, Cousins, etc.)
- Friends

Power of Attorney (POA)

An application signed by a person holding a POA is not an acceptable authorization for us to issue a life insurance policy. The person designated as having the "power" cannot adequately attest to the answers to the questions on the application and the Company would waive its rights to contest a claim based on misrepresentation as that person does not have the knowledge of the applicant's history. In addition, they can't authorize us to check MIB, order an Rx, MVR or medical records in most cases.

Prescription Drug Exclusions

Term Conversion Guidelines

Clients can convert their Term Life Express policies to a new permanent policy within the face amount, issue age and risk class guidelines for the permanent product. This conversion can occur through the last conversion date shown on the client's policy data page. Term Life Express policies issued prior to May 1, 2014 are not eligible for conversions.

- No evidence of insurability is required
- If a term policy is eligible for conversion, it will be converted into a new policy at the insured's current attained age
- We are unable to convert term coverage into an existing universal life policy
- Partial conversions are available as long as the term product is not a Return of Premium product and all minimum face amount requirements for the new product are met
- Riders are not automatically carried over. See the following Rider Conversions section for details
- Substandard policies have limitations. See the following Substandard Conversions section for details

For complete details, refer to the conversion privilege language included in your client's term life insurance policy.
